EXPERIENCE

UI/UX Designer
SkilledAnswers Infosolutions Pvt Ltd
23/07/2021 - 16/09/ 2022

In my previous professional role, I had the opportunity to excel in various facets of user experience design and web development. My responsibilities encompassed interactive flow and interaction design, responsive web design, UI prototyping, wire-framing, HTML, CSS (utilizing Bootstrap), and JavaScript (with a focus on React Js) for web application development. Furthermore, I gained a deep understanding of color theory to enhance visual design. This multifaceted experience not only honed my technical skills but also fostered my aptitude for collaboration and effective time management. It also allowed me to develop the resilience and proficiency required to manage high-pressure workloads effectively.

Web Developer
Rapidmind Technologies,
Sept 2022 /Present

In my current professional role, I hold responsibilities that encompass responsive web design, UI prototyping, wire-framing, HTML, CSS (utilizing Bootstrap), JavaScript, interaction flows, interaction design, and WordPress development for web application projects. This comprehensive skill set is complemented by my understanding of color theory. Moreover, I have gained valuable insights into effective time management, fostering collaborative teamwork, and successfully managing high-pressure workloads.

SKILLS SUMMARY

I have developed technical skills and analytical skills with extensive knowledge of HTML5, CSS3, Javascript, and React Js. I am able to work on multiple tasks. Self-discipline and high responsibility are my principle
